

# The 10th Choshu—London Symposium in Chemistry

Thursday 15 March 2018 1:25 pm to 5:30 pm  
D11 Lecture Theatre, Faculty of Engineering, Yamaguchi University  
Tokiwadai, Ube 755-8611, Japan

1:25 pm Opening Remarks by Professor Akio Kamimura

Chair Dr Takashi Nishikata

1:30 pm Development of Radical Reactions using Vinyl Triflates  
Dr Takuji Kawamoto (Yamaguchi University)

2:10 pm Solid-state Properties of the 'Blue Electron' in Mixed-valence Molecular  
Metal-oxide  
Dr Ryo Tsunashima (Yamaguchi University)

2:50 pm Green Chemistry: Enzymatic and Chemoenzymatic Strategies in Synthesis  
Professor Helen C Hailes (University College London)

3:30 pm Tea break

Chair Professor Toshihiro Murafuji

4:00 pm Syntheses, Characterization, and Biomedical Applications of  
Multifunctionalized Organosilica Nanoparticles  
Professor Michihiro Nakamura (Yamaguchi University)

4:40 pm Target Synthesis: 1,2-diamines and infraluciferins  
Professor Jim Anderson (University College London)

5:20 pm Closing remarks
